

WILL MY INSURANCE COVER THE COST OF THE EQUIPMENT?

This is a question best directed to your insurance provider. Although insurance coverage varies, most insurance companies will cover the use of the face-down recovery equipment. It is best to obtain a pre-certification or prior authorization from your insurance provider.

Vitreotomy RS will assist you in billing your insurance company

HOW DO I GET THE EQUIPMENT?

All VRS recovery equipment is shipped via UPS. VRS will ship you equipment so that it arrives a day in advance of your surgery date. This extra day will give you time to adjust and get acquainted with the equipment. This extra day is at no additional charge and the rental period does not begin until the day of your surgery.

VRS also includes an instructional DVD that will assist you in setting up and adjusting the equipment. Please remember that your comfortable recovery is our #1 priority and we are available 24/7 to answer any questions you might have. Please call if you need **ANYTHING!**
